

# Phishing Standalone -

## Effectively protect your business from phishing attacks

Phishing attacks are one of the biggest threats to your organization's security. Our Phishing Standalone solution provides a comprehensive protection mechanism specifically designed to detect, analyze, and defend against these threats.

### Our Services

With our tailor-made service package, we ensure that your company is also prepared against particularly sophisticated and perfidious phishing attempts.

#### Phishing simulations (up to 15 – incl. spear phishing)

Hands-on experience is essential to improve your workforce's phishing detection skills. We run up to 15 customized phishing simulations. At the same time, we test and increase the vigilance of your teams. Each simulation is carefully planned to create realistic scenarios tailored to your organization's specific risks.

#### Report button

The solution Mail Security Add-in with Report Button for Outlook effectively increases cyber security awareness in companies. It allows employees to easily analyze suspicious emails and report them directly to the IT department if they suspect anything. Through its seamless integration with Outlook, it fosters a proactive security culture, supported by smart checklists and access to learning content. This tool reduces the risk of human error and strengthens the security awareness of the workforce.

#### CSM Premium Onboarding

Our Customer Success Management (CSM) Premium Onboarding ensures that your business is optimally supported from the start. A personal contact person will guide you through the implementation of the Phishing Standalone Service and ensure that all your questions and requirements are addressed.

## Consulting

Our experts are at your side with advice and support. We offer consulting services to effectively strengthen your anti-phishing strategies, optimize your security policy and provide sustainable training for your employees.

## Statistical evaluation

Knowledge is power, especially when it comes to the security of your business. Our statistical evaluations give you deep insights into the phishing attempts to which your company is exposed and the reactions to them. The analyses help you identify trends and take preventive measures.

## Individual content creation

We know that every company is unique. That's why we offer individual content creation as an optional add-on, which is precisely tailored to the needs and risk profile of your company. Whether it's training materials, fact sheets, or customized email templates, we make sure that the content is relevant and effective.

## Protect your business today
