

# Copilot Readiness

## Your Guide to Digital Transformation

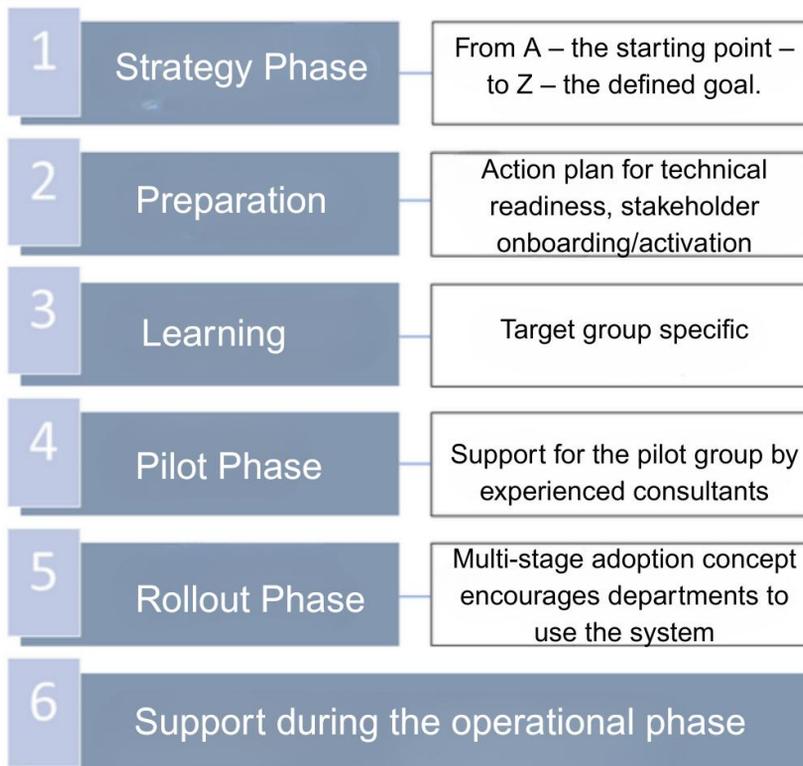

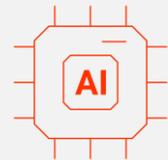

Is your organization ready for Copilot? A fully prepared organization not only needs to have a sophisticated technological infrastructure and expertise in working with Microsoft 365 Copilot, but also embraces a culture of innovation and continuous growth.

A seamless integration of Copilot AI ensures more efficient, productive and decisive work processes. soluzione is at your side to train and empower your employees to use these advanced tools on a daily basis, strengthen collaboration and optimize your business processes. We help you break new organizational ground and take your Copilot readiness to the next level.

### Support from Pilot to Rollout

Our 6 social **support phases** build on each other:

**This is how you invest effectively and purposefully in gamechanger AI.**

## 1. Strategy Phase

Every successful implementation starts with a solid strategy. We work closely with you to:

- get an in-depth understanding of your business needs and goal,
- develop a tailor-made co-pilot strategy that supports these goals,
- form a task force to guide and monitor the implementation process.

## 2. Preparation

Our preparation phase ensures a stable foundation:

- Conduct M365 assessments to assess the readiness of your IT infrastructure.
- Identify the areas that need to be strengthened or improved prior to the Copilot rollout.
- Develop a detailed action plan to address these areas.

## 3. Learning

Know-how is particularly in demand when introducing new technologies. We offer you:

- Training and workshops tailored specifically to your team's needs.
- Share experiences where your team members can share best practices and learn from each other.
- Access to extensive resources and materials to support the learning process.

## 4. Pilot Phase

- Conducting the pilot phase to test Copilot in selected areas of your company.
- Gather feedback and adjust the strategy based on real-world usage experiences.

## 5. Rollout Phase

- Support for the full Copilot rollout to ensure seamless adoption across the organization.

## 6. Support during the operational phase

Our service does not end with the rollout. We also offer:

- Continuous evaluation and adjustment to ensure you get the most value.
- Support for the integration of new features and updates.
- Regular check-ins and support to further drive your digital transformation.
