soluzione Web

Our learning platform for the digital workplace

The digital transformation is rapidly changing the world of work. Employees are faced with the challenge of quickly mastering new tools and ways of working. We offer an innovative solution that makes your workforce fit for the digital workplace.

Our web-based digital learning platform supports companies in optimizing the use of modern tools such as Microsoft 365 or artificial intelligence. Thanks to a user-friendly interface and smart functions, soluzione Web provides both opportunities for structured learning and precise assistance directly in everyday work.

intuitive

No previous knowledge necessary – ready to use immediately

current

Content and features always up to date

efficient

Reduces support costs and increases productivity

Key features

Structured Learning
- Support for all major M365 tools, as well as cyber security awareness, data literacy, and AI
- Thanks to flexible course compositions, individual learning paths can be generated

Evergreen Approach
- Always up-to-date: Automatic updates with the latest features and content.
- Perfect for dynamic IT environments that are constantly evolving.

Smart Search Function
- Semantic search: answers in everyday language, without technical terms.
- Results that are precisely tailored to the needs of the user.

Tests and Certificates
- Used to test your level of knowledge and as a motivation boost
- Support for compliance management (cf. data protection or AI training in accordance with the EU AI Act)

Reporting Functions
- Smart usage evaluations in dashboards help to identify weaknesses and evaluate success.

Flexible Use and Integration
- Platform-independent use in the browser.
- Easy integration into existing IT infrastructures, without additional installation effort.

Benefits for your organization

- Relief for IT support: Fewer inquiries because employees can find answers on their own.
- Compliance & Test
- Campaign capability – learning nuggets are played through the platform

Experience the future of digital learning: Streamline workflows and empower your team's digital literacy—all in one platform.
